

With more than 150 employees and subsidiaries in US, UK, France, Japan and China, GMG is the leading supplier for high-end color management and proofing solutions since 1984. GMG software allows colors on printed materials to be reproduced exactly as expected, whether it is an ad, a publication or packaging.

GMG Headquarter is looking for a

Full Stack Web Developer (f/m/d)

Fulltime in Tuebingen, Germany

Your role:

- Develop new and innovative web/cloud applications, while implementing specified functional and technical design requirements
- Identify and integrate the necessary 3rd party components/frameworks
- Ensure the robustness of the products with automated tests
- Undertake analysis and specification of new requirements for existing products and obtain the necessary information for this purpose by means of A/B tests

Your profile:

- Completed university studies in (media) computer science, mathematics or equivalent education
- Extensive knowledge of and several years' experience with HTML5, JavaScript, Node.js
- You should be familiar with the use of common frameworks like Bootstrap and React.js, and the latest trends like progressive web applications
- Experience in development and operation of serverless back-end logic on a cloud platform, ideally AWS, with emphasis on security, integration and scalability
- For you, protection through automated function and load tests is a matter of course
- Ability to work in a reliable, independent and team-oriented manner
- Very good written and spoken English

We offer:

- Independent work with a plenty of creative freedom
- Diverse, innovative and challenging tasks
- Quick decision-making processes
- Established, internationally active company
- Regular further education and training
- Flexible working hours and attractive remuneration

Have we aroused your interest? Then we look forward to receiving your electronic application, indicating your salary expectations and earliest possible starting date.

“Flat management structures and therefore short decision-making processes allow a pragmatic and solution-oriented thinking in our teams.”

Jochen Moehrke
Manager Customer Support
