

With more than 150 employees and subsidiaries in the US, UK, Japan and China, GMG is the leading supplier for high-end color management and proofing solutions since 1984. GMG software allows colors on printed materials to be reproduced exactly as expected, whether it is an ad, a publication or packaging.

GMG Headquarters in Tuebingen, Germany, is looking for a

Senior Software Engineer (f/m/d)

full- or part-time

What drives you as a software developer at GMG is the fact that you make a valuable contribution to outstanding solutions. You value quality and want to make our product portfolio even more efficient with new ideas and profound know-how. Because you always have the best possible user experience in mind, you combine your attention to detail with a keen eye for the bigger picture.

Your role:

- You will actively shape GMG's digital future as a provider of hybrid color management services by extending our existing products and making them cloud-enabled
- Integration of required 3rd-party components/APIs/hardware and increase reusability of existing code
- You ensure the reliability of the products with automated test procedures
- Analysis and specification of new requirements and active participation in agile planning processes

Your profile:

- Completed studies in computer science, informatics, mathematics, or relevant professional experience
- Profound experience in software development with C# and related technologies
- Practical experience with Windows (.NET Framework, WinForms/WPF) and Cloud (.NET Core)
- Familiar with SQL, XML, XSLT and JSON
- Experience in C++ world and integration of native components in C# is an advantage
- Team player with a strong commitment to quality
- Takes an interest in and enjoys new technological developments
- Very good knowledge of German or English

We offer:

- Independent work with plenty of creative freedom
- Diverse, innovative and challenging tasks
- Established, internationally active company
- Regular further education and training
- Flexible working arrangements

Interested? Then we look forward to receiving your application, indicating your salary expectations and earliest possible start date.

"Flat management structures and therefore short decision-making processes allow a pragmatic and solution-oriented thinking in our teams."

Jochen Moehrke
